

## New products, new graphics make 2006 exciting year for HOM

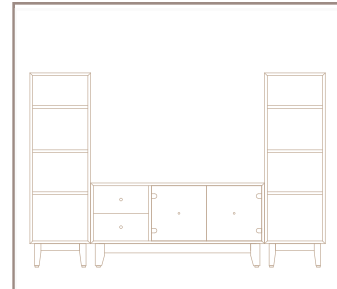

### Natural Walnut wood:

All Sonoma and D-line products are now available in this richly textured exotic wood that complements today's modern, urban lifestyle emphasis on natural luxury.

### Plasma Cabinets:

Both Sonoma and D-line collections now offer a wide array of cabinets to house popular plasma TV's.

### D-line Bed:

Offering a unique contemporary canopy design and integral footboard curio cabinet, this bed breaks new ground.

### Sonoma Chair:

With its clean lines, solid beech construction, leather or fabric seat and all the BERMANFALK colours, this chair is a definite winner.

### D-line Bench:

Back by popular demand! First introduced by HOM in 2001, the benches were discontinued with the transition to BERMANFALK. Now thanks to dealer demand, the benches are back in the lineup.

## ... new products, new graphics - continued:

### Colour Brochures:

Completing the transition to BERMANFALK and kicking off the new year with a new look, HOM has new colour brochures to showcase the Sonoma and D-line products.

### Postcards:

Complementing the new graphic look of the HOM brochures are these line cards available for POP handout or mailing.

### Website:

Adding to the comprehensive graphic makeover, new HOM web pages showcase the new products as well as the complete collection.

### Price List:

To help navigate the wide selection of items in the lines, HOM presents a new price list in a new graphics format.
