NEW WOOD PANEL SABRE BED

Reflects BERMANFALK's Signature Use of Solid Wood

Vancouver, BC – BERMANFALK's beautiful signature use of solid maple wood is perfectly reflected in the new Sabre wood panel bed. To be introduced at the April 2006 High Point Market in High Point, North Carolina, the luxurious bed is the third in the Sabre sleeping collection.

Standing at 67" tall, the Sabre bed's striking headboard is made up of three vertical bevelled panels. The matching footboard is a delightful smaller replica. It's legs are elegantly curved, a standard feature in all Sabre pieces. The entire bed is constructed with solid maple wood, creating a much admired master bedroom centrepiece.

The Sabre sleeping collection offers a choice of beds, dressers, night stands, armoires and benches, each available in a variety of configurations and sizes. With quality in mind, each BERMANFALK piece is manufactured with solid maple wood, protected with two coats of post-catalyzed lacquer and hand-rubbed with high-solid stains.

Located near Vancouver, BERMANFALK designs and manufactures select collections for luxurious living. Described as transitional elegance, BERMANFALK is ideal for those who want to create emotive, enduring interiors that define individual style.

Visit BERMANFALK at the Suites at Market Square 1-436 in April at the High Point Market in North Carolina.
