# CASE STUDY

## *disclosure*

This case study highlights specific BERMANFALK material components used in the 1 Hotel Seattle project that have been independently rated by MindClick. Please note that this is an internal BERMANFALK report and not an official MindClick Project Rating. Our ratings apply exclusively to BERMANFALK-supplied materials; third-party components (such as hardware, lighting, and COM fabrics) are excluded from our assessment. Furthermore, while plywood, glass, natural caning, quartzite, and painted surfaces were included in the 1 Hotel Seattle project, they are not yet within our MindClick rating scope at this time and have not been awarded a badge for inclusion in this case study. [MindClick Rating Explained.](#)
